

Telecom Cable Installation Technicians (all levels)

Full time - Norfolk VA

Travel – 80%

Atlantic CommTech Corporation provides a wide range of telecommunications engineering and installation services for US Government clients such as the US Coast Guard, Department of State, Air Force and Army.

We are currently seeking qualified cable technicians who have experience with the installation of low voltage cabling systems. Candidates must be well organized and self motivated who can communicate with other technicians, project managers about what is needed for cable installation.

Junior – Entry Level Requirements:

- Must be able to work on a ladder for extended periods of time
- Installation of cable hanging support structures (terminate CAT.5e, CAT.6 jacks and fiber optics). Mount face plates and surface mount boxes correctly.
- Build out communication closets (Mount and install backboards, cross connects, racks, patch panels, fiber optic and hardware)
- Install grounding for racks, equipment and cable as required
- Perform testing: continuity test horizontal and riser cable; use of volt-ohmmeter; troubleshoot opens, crosses, shorts and transpose pairs on horizontal and riser cable; use a tone set

Intermediate Mid-Level Requirements (above plus the following):

- Termination experience with multi-pair / strand cable (Copper and fiber)
- Professional cabling installations for floor, modular furniture, walls, and communication closets
- Adhere to BICSI installation/labeling standards
- Qualified on the use of all test equipment
- Complete all IDC connections (e.g. terminate 110/66 blocks and patch panels)
- Troubleshoot and document test results and as-built plans
- Minimum of five years experience

Lead Senior-Level Requirements (above plus the following):

- Assists Engineering personnel with or conducts independent site surveys, assesses and documents current site unique aspects/configuration and customer requirements
- Analyzes existing requirements and prepares site-specific reports
- Prepares site installation and test reports
- Responsible for interfacing with the client and leading a team
- Develops installation schedules
- Minimum of eight years of experience is required.

Preferences for all levels:

- BICSI Installer/Technician Certification
- OSHA 10 hour or OSHA 30 hour.
- Having a “Secret” security clearance is a plus or the ability to obtain one.

*****THESE POSITIONS REQUIRE up to 80% Travel*****

Interested candidates should email resumes to jobs@act-corp.com.
